

Smart fridge

Visual recognition, open the door to pick up goods,
intelligent vending machine

Dynamic intelligent identified self-service vending machine

Less space-occupying, wider range of products,
lower risk, more convenient operation.

Easy operation management
Integrated online and offline monitoring

AI intelligent certified system
recognition rate up to 99%

All kinds of goods
Compatible with a variety of products

Low cost and risk
with real-time monitoring of cloud platform, saving human resource

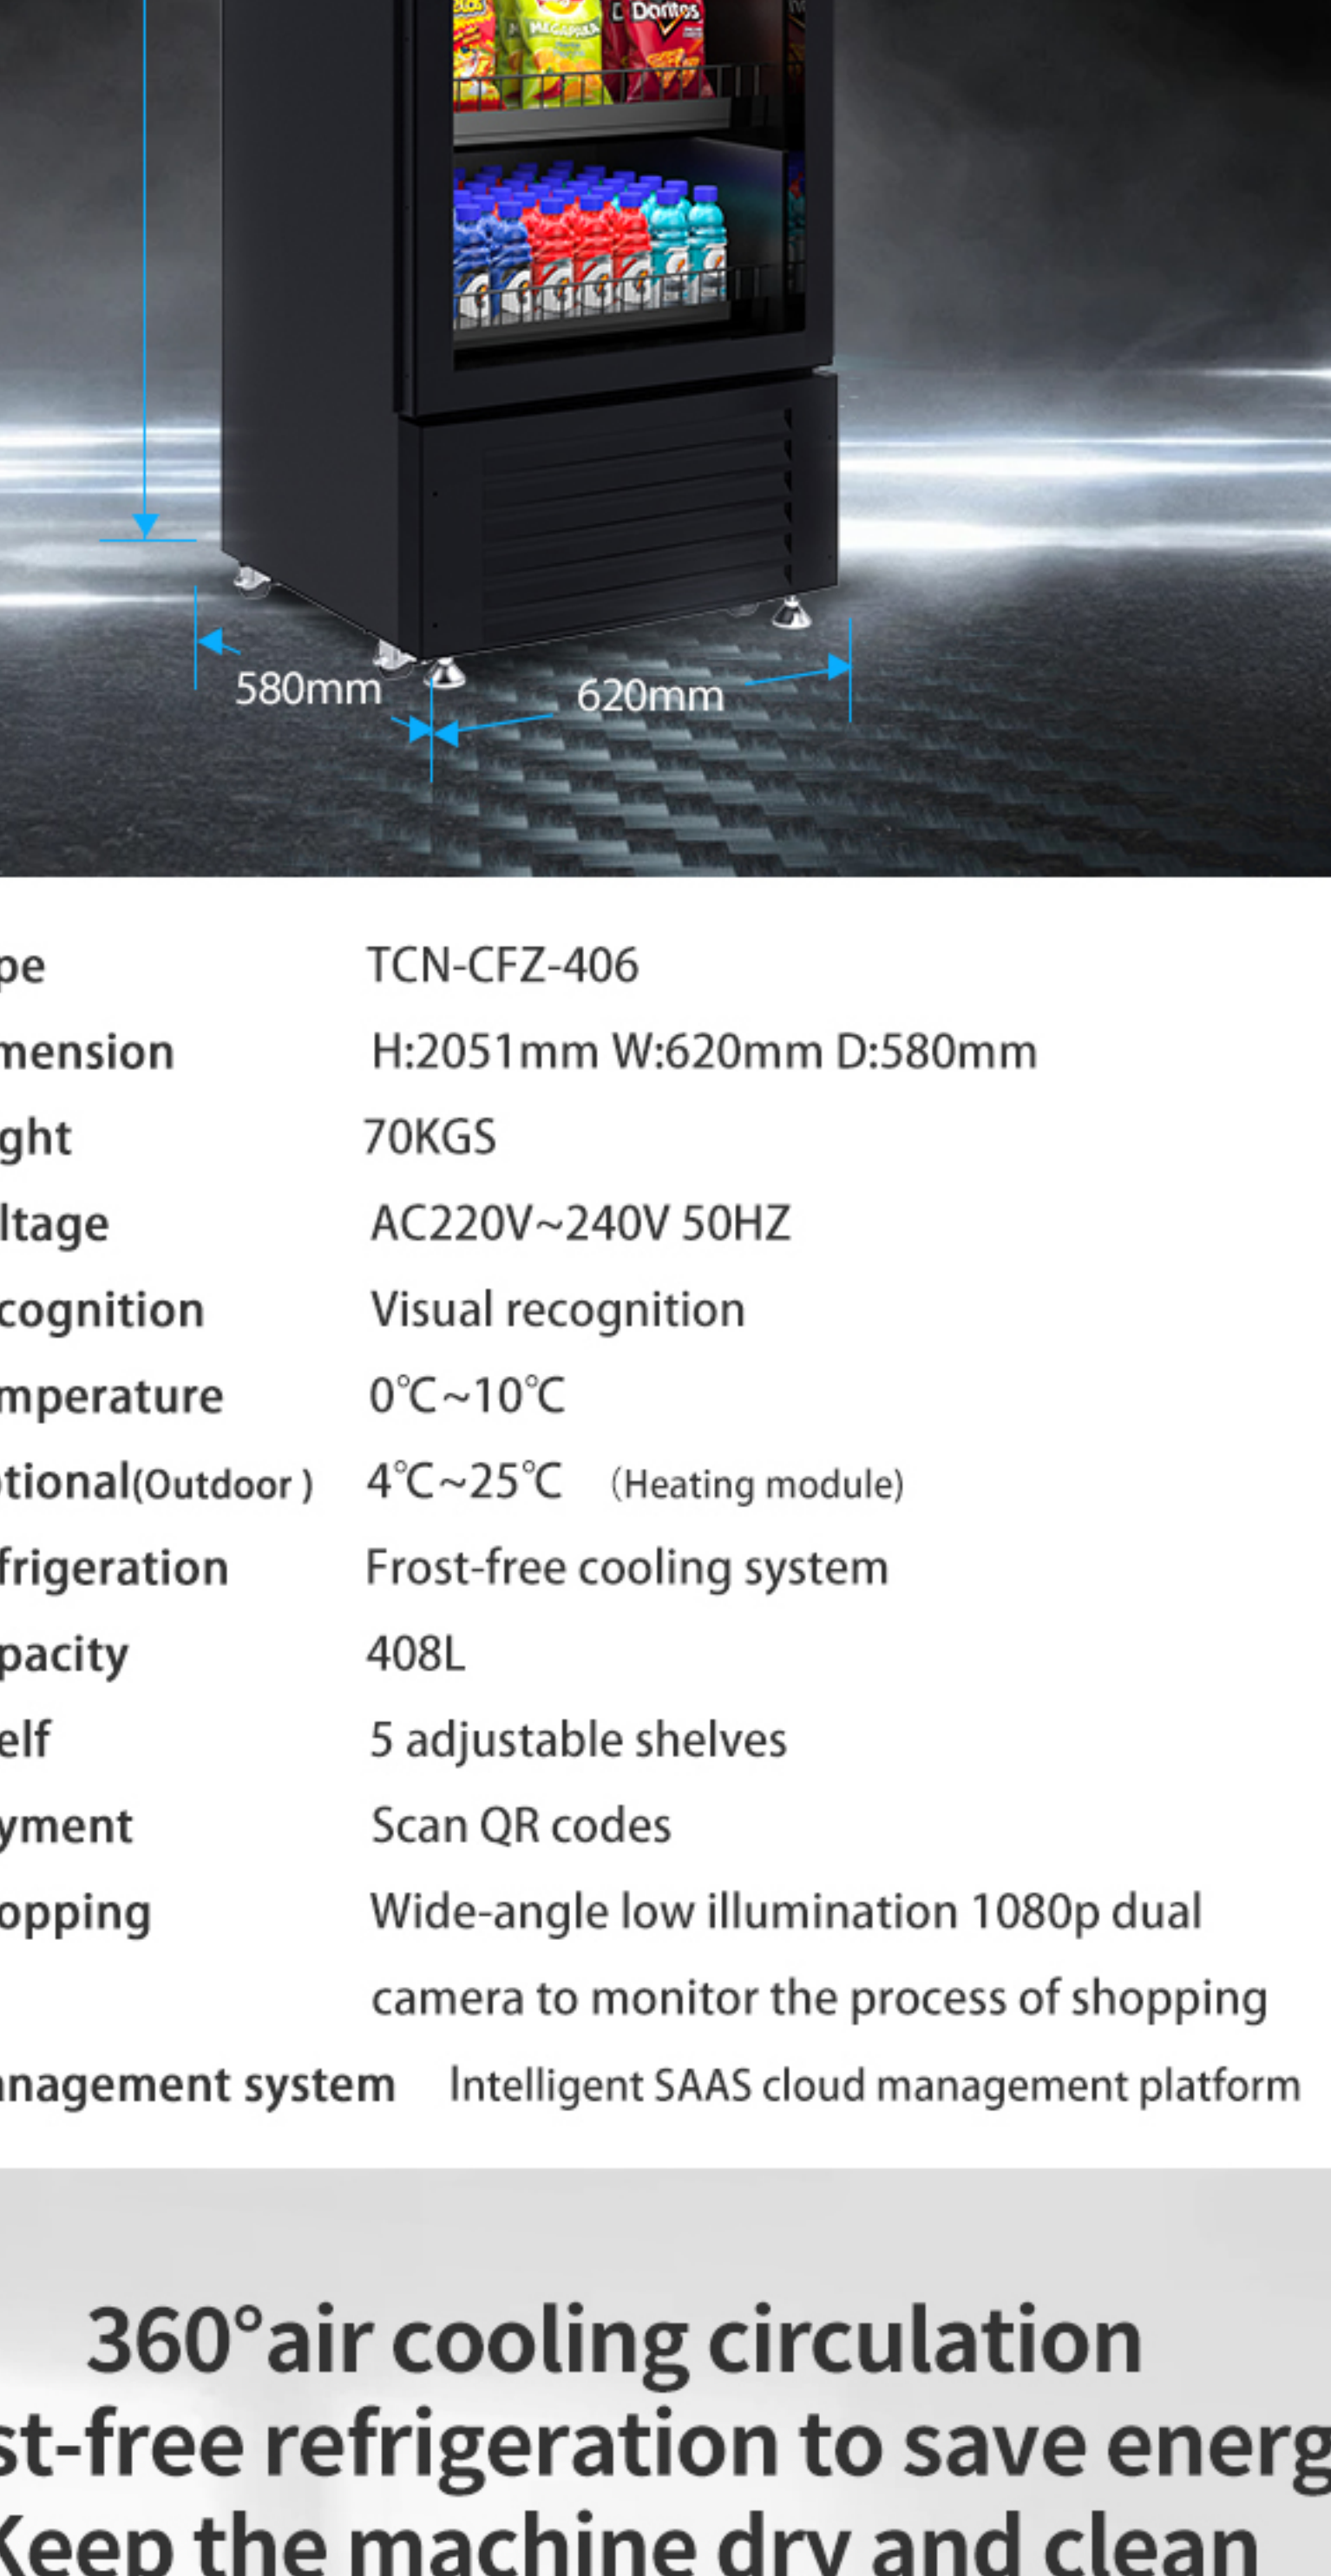

Funds arrive in real time
AI face-scan pay / card payment functions to open the door, safe and fast.

Convenient
Convenient replenishment with adjustable trays.

PRODUCT PARAMETERS

Sophisticated fuselage, just cover an area of 0.4 m²

Type	TCN-CFZ-406
Dimension	H:2051mm W:620mm D:580mm
Wight	70KGS
Voltage	AC220V~240V 50HZ
Recognition	Visual recognition
Temperature	0°C~10°C
Optional(Outdoor)	4°C~25°C (Heating module)
Refrigeration	Frost-free cooling system
Capacity	408L
Shelf	5 adjustable shelves
Payment	Scan QR codes
Shopping	Wide-angle low illumination 1080p dual camera to monitor the process of shopping
Management system	Intelligent SAAS cloud management platform

360° air cooling circulation Frost-free refrigeration to save energy Keep the machine dry and clean

High-end AI technology

Benefit from artificial intelligence chips with which we can reach a recognition rate of 99%

Image recognition

Behavior tracking

Recognition rate
99%

5 grid trays

Adjustable and Flexible to replenish goods

Self-service to reduce failure rate and save operation cost

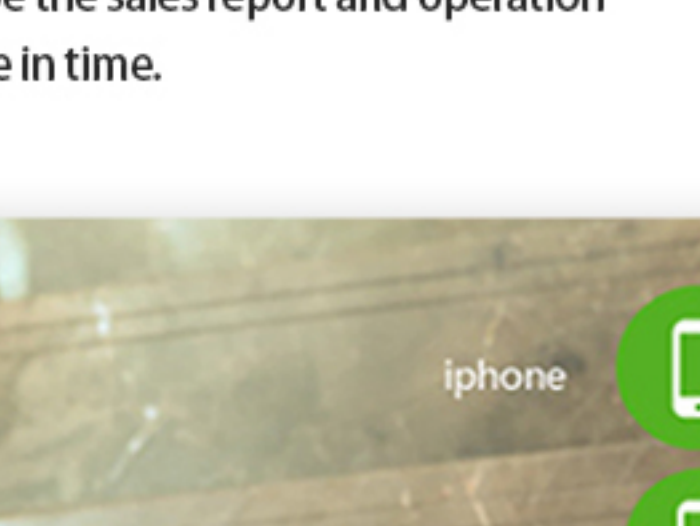

Touchless shopping Just three steps

Wide-angle low illumination 1080p dual camera to monitor the whole process of shopping accurate and convenient

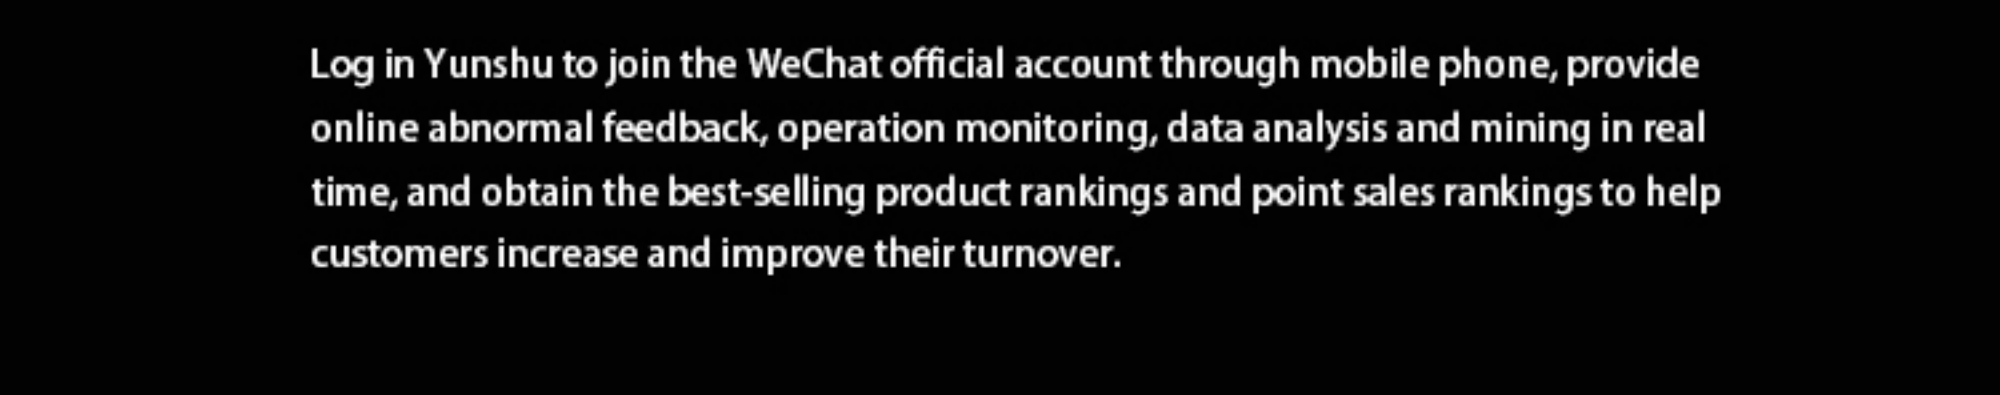

Customers don't have to download an APP, they use face-recognition payment to open the door, take the products and then leave, it's easy and convenient.

AI automatic detection to check and calculate the total amount

Cloud background Intelligent management

Easy to attain real-time query of vending machine sales reports, data statistics, fault warnings, and remote monitoring online. Let you wipe the sales report and operation status of the vending machine in time.

TCN SaaS Wisdom Operational Platform use it for free forever

- device management
- operation monitoring
- fault feedback
- Remote price change
- Logo modification
- Remote timer switch
- Shipment WeChat notification
- Electronic report

Log in Yunshu to join the WeChat official account through mobile phone, provide online abnormal feedback, operation monitoring, data analysis and mining in real time, and obtain the best-selling product rankings and point sales rankings to help customers increase and improve their turnover.
